Dilation Information

It is our goal to provide a complete and thorough comprehensive eye examination. To effectively accomplish our goal, we feel it is important to dilate the pupils of your eyes. This will require placing drops in your eye.

As with many medications, there are some side effects of the drops used to dilate the pupil. These include sensitivity to light and blurred reading vision. In most cases, the distance vision will not be affected. The side effects usually last several hours but can, in some instances, last up to 24 hours.

While we believe that dilation is an important part of the eye examination process, we understand that you may wish to defer or decline this procedure. **Please indicate your preference below.**

- I wish to be dilated today.
- I do not wish to be dilated at this time but will return for this procedure at a later date (there is no additional charge when you return for routine dilation within 90 days from your examination date).
- I do not wish to be dilated and agree to hold *InnoVision Practice Group, P.A.* harmless as a result of my actions.

Financial Information

Payment for services is required at the time of service. Please indicate below how you intend to pay for your professional fees and/or materials not covered by any insurance.

We accept the following forms of payment:

- Cash or Check
- MasterCard/Visa
